

**HECKER'S** *FERLINA*, prepared especially for the press, is a delicate and appropriate food for the sick and one of the most economical, nutritious, and whole-composite preparations ever brought to the table, eminently combining the gratification of the palate with simple and healthful sustenance of the body.

Strongly speaking, *Ferlina* is a most stringent not laxative, but restorative, strengthening the digestive and absorbent system. In disordered bowels, diarrhoea, dysentery, and even in cases of cholera, when food is deemed admissible by the physician, *Ferlina* is the most appropriate remedy; and wherever known is extensively used in hospitals and private practice. The preservation of health or the prevention of sickness

is at least as important as the curing of disease. People in health should therefore use Heckers' Food, as common food, to preserve the health and obtain the most estimable blessing.

For sale by grocers and druggists generally.

Wholesale by Charles F. Pitts, 12 Commerce street, Baltimore; George & Brother, 97 South street, Philadelphia; J. G. Bowdoin & Co., 17 Long Wharf, Boston; and by the manufacturers—Harris, Hecker & Brother, at the Croton Mills, 20 Cherry street, New York.

Heckers' Farina Jelly, made in doubtless the most perfect manner or according to the best possible, is now exhibited daily at the Fair of the Metropolitan Mechanics' Institute at Washington.
